WORK EXPERIENCE

Fortinet | Burnaby BC

Jun 2022 – Present

Penetration Tester and Security Analyst

Jul 2024 - Present

- Performed black-box web app penetration tests on 12+ Fortinet cloud services such as FortiGate Cloud, FortiAnalyzer Cloud, FortiSASE, etc.
- Reported 25+ impactful vulnerabilities in less than a year, such as XXE, SQLi, XSS, DoS, SSRF, and AI attacks
- Developed 10+ formal penetration test reports with clear replication steps and remediation suggestions
- Communicated with other Fortinet teams to ensure testing scope, environment setup, and testing dates & times
- Used tools such as Burp Suite Pro/Enterprise, ZAP, Nmap, Ffuf, Nessus, SQLMap, and Nikto2

Mobile Software Development QA

Jun 2022

- Tested and evaluated FortiClient for iOS/Android devices to minimize software bugs for users around the world
- Established remote testing environments for team members to easily access remotely and replicate issues
- Performed over 400+ manual regression test cases that interact with other Fortinet products
- Configured following products to replicate customer environments: Active Directory, FortiGate, FortiClient EMS, FortiAuthenticator, FortiAnalyzer, Airwatch/Intune, OKTA

York House School | Vancouver BC

Dec 2020 – Dec 2021

Junior Network Analyst

- Provided Help Desk-based L1 IT support to over 700 students and 100 staff members in a school environment, including troubleshooting devices, classroom/conference tech, network issues, and hardware/software issues
- Managed and provisioned over 200 Apple devices including MacBooks, iPads, and Apple TVs using Mosyle MDM
- Established a Cache Server on a Mac Mini to increase software update download speeds by 100%
